Subject: S/027/074 - Trespass

7/30/99 - Received phone call from Larry McCurtie (Unique Minerals). They had hired Cook Crushing (Terry Cook) to operate this site. Cook did nothing under their agreement and have not held up to their commitment so Unique Minerals fired them. They just found out that Cook went back into the property and is mining on their own - they are trespassing and have no permit to mine.

Unique Minerals will be sending us the letter they sent to Cook to get off their property. They have an attorney retained and this will probably go into a legal suit. Terry Cook is a member of Unique Minerals Board.

Unique Minerals does not want to be held liable for any responsibility someone else did on their property illegally.

This note will be copied to the file - S/027/074
